

Diploma in Business

Year 1 of a 3 Year Degree

NCC Education is a UK awarding body, regulated by Ofqual and well established in the UK and worldwide. NCC Education's Level 4 Diploma in Business (L4DB) is equivalent to the first year of a Business degree qualification in the UK university system.

Students are introduced to many different aspects of international business in today's world. Embarking on the qualification, students are exposed to both the academic and vocational aspects of a wide range of business-related subjects, enabling them to gain the necessary knowledge and skills vital for a career in business or further studies.

This qualification is recognised and valued by many universities and employers, both in the UK and other countries. There are in fact over 50 university progression routes to UK and overseas universities. The successful completion of the qualification allows students entry to the second year of many UK university degree courses related to business or a career in the business industry.

What is your next step?

In particular, this qualification is a pathway to the second year of the University of Wolverhampton's BA (Hons) Business Management degree, following which students may opt to specialise in Marketing or Human Resources in their third year.

YOUR FIRST STEP STARTS HERE

Eight Core Modules

◆ Essentials of Management

This unit covers the principles and functions of management. Students are taught the key elements in planning and decision-making, and the significance of different controls required in an organisation.

◆ Fundamentals of Economics

In this unit students learn fundamental economic theories and concepts which are applied in decision-making in a business environment. Students also gain an understanding of the economic environment and its effects upon business organisations and their markets.

◆ Communications for Business

This unit gives an introduction to a wide range of skills for business professionals. Students also cover the production of various types of documents and presentations as well as the skills needed to communicate effectively in a business environment.

◆ Understanding Business Organisations

This unit introduces the objectives, roles, functions and various forms of business organisations as they adapt to a dynamic and changing environment.

◆ Business Mathematics

In this unit students cover a range of mathematical techniques and formulae that support business studies and develop the ability to make informed business decisions. Students are also taught how to present and analyse business data.

◆ Introduction to Finance

This unit introduces the basic concepts and techniques of financial and managerial accounting. It considers the role of accounting in recording and reporting financial performance and in providing information to decision makers.

◆ eBusiness

In this unit students explore a wide range of applications for eCommerce and the use of these in solving business problems. Students also learn about state-of-the-art technologies and their major impact on the business world.

◆ Principles of Marketing

This unit allows students to examine the role and value of marketing in today's increasingly competitive and dynamic environment. Students are given the opportunity to practise marketing principles in order to analyse, plan and implement policies to achieve marketing and corporate objectives
